

Thermastore

Insulated Garages & Sheds

If you are looking for an Insulated Steel Garage or Shed the Thermastore is the ideal solution. The Thermastore is a step up from the Durastore range, this selection is constructed with fully insulated walls and roof panels. While retaining the same robust construction as our Durastore models, these easily heated units have the added advantage of retaining heat. This insulation combined with heating, allows for a dryer and more comfortable environment for use as workshops and hobby spaces along with being an ideal storage area for your more valuable goods such as cars, vintage vehicles, electrical items and household furniture. *A rebated concrete base is required for a Thermastore Insulated Steel Garage & Shed.*

BETTER BUILT BY ADMAN

- **Insulated walls & roof:** constructed using 40mm Kingspan insulated sandwich panel throughout.
- **Heavy duty materials:** heavy duty galvanised structural steel framework combined with

fabricated centre support beams for maximum strength.

- **Superior finishes:** safe edge folds on all exterior flashings; external screws finished with protective colour caps and non-drip roof sheeting.
- **PVC gutters & downpipes** fitted to all Durastore buildings
- **Maintenance free exterior:** PVC coated in a choice of colours.
- **Window & door options:** roller garage doors, steel pedestrian and double opening doors, steel security and double glazed PVC pedestrian doors and choice of windows.
- **Natural light:** optional UV protected polycarbonate clear roof panels positioned on either side of the roof.
- **Smart storage options:** such as bike and tool racks, workbenches and shelving units.

The Thermastore Insulated Steel Garage and Shed is Made to order in our Manufacturing Facility in Co. Wexford
